THE CHIROPRACTIC ASSOCIATES

TERMS OF ACCEPTANCE

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working with the same objective.

Chiropractic has only one goal. It is important that each patient understands both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

As a chiropractic patient, it is important that you are always aware of some terminology that will be used in practice. This will give you a better understanding of chiropractic care.

Health: A state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebra in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if, during a chiropractic spinal examination, we encounter non-chiropractic or usual findings, we will advise you. If you desire advice, diagnosis, or treatment for those findings, we recommend that you seek the service of a health care provider who specializes in that area.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. OUR ONLY PRACTICE OBJECTIVE is to eliminate a major interference in the expression of the body's innate wisdom to heal itself. Our only method is specific adjusting to correct vertebral subluxation.

I, ______________________________, have read and fully understand the above statements.
(Print Name)

All questions regarding the doctor's objective pertaining to my care in this office have been answered to my complete satisfaction.

I therefore accept chiropractic care on this basis.
